

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children and pets are present, take basic safety precautions, including the following:

KEEP OUT OF REACH OF CHILDREN!

READ ALL INSTRUCTIONS BEFORE USING.

KEEP AWAY FROM WATER!

DANGER — As with most electrical appliances, parts are electrically live even when the switch is off. To reduce the risk of death by electric shock:

1. Always unplug appliance immediately after using.

2. Do not use while bathing or in the shower.

3. Do not place or store appliance where it can fall or be pulled into a tub or sink.

4. Do not place in, or drop into, water or any other liquid.

5. If an appliance falls into water, unplug it immediately. **Do not reach into the water.**

WARNING —

To reduce the risk of burns, electrocution, fire, or injury to persons:

1. This appliance should never be left unattended when plugged in.

2. Do not pull, twist, or wrap line cord around appliance.

3. This appliance should not be used by, on, or near children or individuals with certain disabilities.

4. Use this appliance only for its intended use, as described in this manual. Do not use attachments not recommended by the manufacturer. Do not use an extension cord to operate appliance.

5. Do not use this appliance near bathtubs, showers, toilets or any other recipient containing water.

6. Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the appliance to the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

7. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

8. Keep the cord away from heated surfaces.

9. Never use while sleeping.

10. Never drop or insert any object into any opening.

11. Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.

10. Do not use an extension cord with this appliance.

11. This appliance is hot when in use. Do not let heated surfaces touch eyes or skin.

12.

Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair and the like.

13. Do not place the appliance on any surface while it is operating.

14. Do not touch hot surfaces of the appliance; use handles or knobs.

15. Do not use this appliance near bathtubs, showers, toilets or any other recipient containing water.

16. Children should be supervised to ensure that they do not play with the appliance.

17. Burn Hazard. Keep appliance out of reach from young children, particularly during use and cool down.

SAVE THESE INSTRUCTIONS

SAFETY INSTRUCTIONS

1. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

2. Children should be supervised to ensure that they do not play with the appliance.

3. Burn Hazard. Keep appliance out of reach from young children, particularly during use and cool down.

OPERATING INSTRUCTIONS

This appliance is intended for professional or household use. Use on alternating current (50-60Hz) only. Standard appliances are designed to operate at rated voltage.

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature. This iron is designed to shut off after 60 minutes of nonuse.

DUAL VOLTAGE

This U-Styler Iron has dual voltage. It will automatically adjust to the proper voltage. Use an adapter plug (not included) with correct configuration prior to use in outlet.

STRAIGHTENING BASICS

1. Plug the iron into a standard electrical outlet.

2. Use the temperature controls to select the setting for your hair type. You can use the chart below as a reference. The corresponding LED light will illuminate.

The iron will heat up very quickly. It is not necessary to touch the plates to judge readiness.

TO CREATE CURLS

Your Nano Titanium U-Styler iron has many benefits. Titanium is an exceptional conductor of heat and is stable in ultra-high temperatures. The titanium plating technology helps provide the ultimate heat performance for beautiful, healthy-looking hair. Titanium's light weight and smooth surface helps reduce time and fatigue and is exceptionally resistant to chemical corrosion. This Nano Titanium iron will give your hair a smooth, silky shine while

5. Gently pull the iron down to the end of the section of hair in an outward curved motion so that by the time the unit reaches the ends of the hair, the side heating plates are facing up.

6. Release the hair.

7. To ensure the curl sits neatly in place, grab the end of the section you have just curled and twist it 180° in the direction of the curl.

CAUTION

NEVER allow the power supply cord to be pulled or twisted. Never wrap the cord around the unit. Damage will occur at the high flex point of entry into the unit, causing it to rupture and short. Inspect the cord frequently for damage. Stop use immediately if damage is visible or if unit stops or operates intermittently.

NOTICE

THIS PRODUCT IS EQUIPPED WITH AN INSTANT HEAT CIRCUITRY.

DO NOT LEAVE PRODUCT ON OR PLUGGED IN WHILE NOT IN USE. UNIT WILL BURN OUT IF POWER IS KEPT ON FOR AN EXTENDED PERIOD OF TIME. WARRANTY WILL BE VOIDED.

TURN UNIT OFF AND UNPLUG WHEN NOT IN USE.

GET TO KNOW YOUR PROFESSIONAL U-STYLER IRON

Model BNT4061TUX

Rubberized cool tips and thumb rest

On/Off/temperature control with 5 temperature settings

Side heating plates

1" straightening plate

Diagram showing the iron with its various components labeled: rubberized cool tips, thumb rest, On/Off/temperature control, side heating plates, and 1" straightening plate.

Technique 1

1. Separate a section of hair, no more than 1½" wide. The smaller the section, the more defined the curl. The larger the section, the looser the curl or wave.

2. Place section of hair between the plates, making sure the side heating plates are facing toward the head. Close the plates.

3. Release the hair.

4. To ensure the curl sits neatly in place, grab the end of the section you have just curled and twist it 180° in the direction of the curl.

KEEP AWAY FROM WATER

NEVER allow the power supply cord to be pulled or twisted. Never wrap the cord around the unit. Damage will occur at the high flex point of entry into the unit, causing it to rupture and short. Inspect the cord frequently for damage. Stop use immediately if damage is visible or if unit stops or operates intermittently.

Technique 2

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Rotate the iron in the desired direction and wrap hair around housing.

3. Turn off and unplug the appliance when done.

4. Allow to cool before storing.

ALWAYS UNPLUG SMALL APPLIANCES.

5. Gently pull the iron down to the end of the section of hair in an inward curved motion so that by the time the unit reaches the ends of the hair, the side heating plates are facing down.

6. Release the hair.

Technique 3

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Repeat this process several times if necessary. Continue with the remaining sections. Allow hair to cool before combing.

3. Turn the unit 90° so that the side heating plates are facing upward.

4. It is important that the hair is held firmly between the plates. For extra control, hold the rubberized cool tips.

5. Turn the unit 90° so that the side heating plates are facing downward.

NOTICE

Everyone knows that electricity and water are a dangerous combination, but did you know that an electrical appliance is still electrically live even if the switch is off? If the plug is in, the power is on. So when you are not using your appliances, keep them unplugged.

Storage

When not in use, your appliance is easy to store. Allow unit to cool, then simply put back in the box, and store out of reach of children in a safe, dry location. Do not jerk or strain cord at plug connections.

3. Release hair.

4. Turn the unit 90° so that the side heating plates are facing upward.

or

4. Turn the unit 90° so that the side heating plates are facing downward.

5. Gently pull the iron down to the end of the section of hair in an outward curved motion so that by the time the unit reaches the ends of the hair, the side heating plates are facing up.

6. Release the hair.

Technique 4

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Rotate the iron in the desired direction and wrap hair around housing.

3. Turn off and unplug the appliance when done.

4. Allow to cool before storing.

5. Turn the unit 90° so that the side heating plates are facing upward.

6. Release hair.

Technique 5

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Repeat this process several times if necessary. Continue with the remaining sections. Allow hair to cool before combing.

3. Turn the unit 90° so that the side heating plates are facing downward.

4. It is important that the hair is held firmly between the plates. For extra control, hold the rubberized cool tips.

5. Turn the unit 90° so that the side heating plates are facing upward.

6. Release hair.

Technique 6

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Rotate the iron in the desired direction and wrap hair around housing.

3. Turn off and unplug the appliance when done.

4. Allow to cool before storing.

5. Turn the unit 90° so that the side heating plates are facing upward.

6. Release hair.

Technique 7

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Repeat this process several times if necessary. Continue with the remaining sections. Allow hair to cool before combing.

3. Turn the unit 90° so that the side heating plates are facing downward.

4. It is important that the hair is held firmly between the plates. For extra control, hold the rubberized cool tips.

5. Turn the unit 90° so that the side heating plates are facing upward.

6. Release hair.

Technique 8

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Rotate the iron in the desired direction and wrap hair around housing.

3. Turn off and unplug the appliance when done.

4. Allow to cool before storing.

5. Turn the unit 90° so that the side heating plates are facing upward.

6. Release hair.

Technique 9

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Repeat this process several times if necessary. Continue with the remaining sections. Allow hair to cool before combing.

3. Turn the unit 90° so that the side heating plates are facing downward.

4. It is important that the hair is held firmly between the plates. For extra control, hold the rubberized cool tips.

5. Turn the unit 90° so that the side heating plates are facing upward.

6. Release hair.

Technique 10

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

2. Rotate the iron in the desired direction and wrap hair around housing.

3. Turn off and unplug the appliance when done.

4. Allow to cool before storing.

5. Turn the unit 90° so that the side heating plates are facing upward.

6. Release hair.

Technique 11

1. Separate a section of hair, and place the ends of the section between the plates. Close the plates.

MEDIDAS DE SEGURIDAD IMPORTANTES

Al usar aparatos eléctricos, especialmente en presencia de niños, siempre debe tomar precauciones básicas de seguridad, incluso las siguientes:

MANTÉNGALO FUERA DEL ALCANCE DE LOS NIÑOS!

LEA TODAS LAS INSTRUCCIONES ANTES DE USARLO.

MANTÉNGALO ALEJADO DEL AGUA!

PELIGRO — Como es el caso de la mayoría de los aparatos eléctricos, los componentes eléctricos de este aparato permanecen bajo tensión cuando está conectado, incluso si está apagado. Para reducir el riesgo de descarga eléctrica:

1. Siempre desconéctelo inmediatamente después de usarlo.

2. No lo use mientras se esté bañando o en la regadera.

3. No deje ó guarde el aparato donde éste pueda caer ó ser jalado a la tina ó al lavabo.

4. Mantenga el cable alejado de las superficies calientes.

5. Nunca utilice el aparato mientras usted duerme.

6. Nunca utilice el aparato mientras usted duerme.

5. Si un aparato ha caído en el agua, desconéctelo inmediatamente. **No trate de sacarlo del agua.**

ADVERTENCIA — Para reducir el riesgo de quemaduras, electrocución, fuego ó daño a personas:

1. Nunca deje el aparato desatendido mientras está conectado.

2. No jale, retuerza, ni enrolle el cable alrededor del aparato.

3. Este aparato cuando no debería ser utilizado por, sobre o cerca de niños o personas con alguna discapacidad.

4. Use este aparato únicamente con el propósito para el cual fue diseñado y tal como se describe en este manual. Sólo use accesorios recomendados por el fabricante.

13. No coloque el aparato en ninguna superficie mientras está funcionando.

14. No toque las partes calientes de este aparato. Use los botones o los agarres.

15. No utilice el aparato cerca de tinas, lavabos, inodoros u otros recipientes que contienen agua.

16. Para su seguridad, el cable debe ser reemplazado por el fabricante, un centro de servicio autorizado o otra persona calificada.

8. Nunca deje caer ni inserte un objeto en ninguna de las aberturas.

9. No lo utilice al aire libre, ni donde se estén usando productos en aerosol (spray) o donde se esté administrando oxígeno.

10. No utilice una extensión eléctrica con este aparato.

11. Este aparato está caliente cuando está encendido. Mantenga los ojos y la piel alejados de las superficies calientes.

12. Nunca bloquee las aberturas de aire o coloque el aparato en una superficie blanda, como una cama o un sofá, donde se puedan obstruir. Mantenga las aberturas libres de pelusas, cabellos y elementos similares.

13. No coloque el aparato en ninguna superficie mientras está funcionando.

14. No toque las partes calientes de este aparato. Use los botones o los agarres.

15. No utilice el aparato cerca de tinas, lavabos, inodoros u otros recipientes que contienen agua.

16. Para su seguridad, el cable debe ser reemplazado por el fabricante, un centro de servicio autorizado o otra persona calificada.

17. Antes de conectarlo, lea toda la información concerniente al doble voltaje que se encuentra en la sección de instrucciones de este manual.

18. Nunca deje caer ni inserte un objeto en ninguna de las aberturas.

19. No lo utilice al aire libre, ni donde se estén usando productos en aerosol (spray) o donde se esté administrando oxígeno.

20. No utilice una extensión eléctrica con este aparato.

21. Este aparato está caliente cuando está encendido. Mantenga los ojos y la piel alejados de las superficies calientes.

22. Nunca bloquee las aberturas de aire o coloque el aparato en una superficie blanda, como una cama o un sofá, donde se puedan obstruir. Mantenga las aberturas libres de pelusas, cabellos y elementos similares.

23. No coloque el aparato en ninguna superficie mientras está funcionando.

24. No toque las partes calientes de este aparato. Use los botones o los agarres.

25. No utilice el aparato cerca de tinas, lavabos, inodoros u otros recipientes que contienen agua.

26. Para su seguridad, el cable debe ser reemplazado por el fabricante, un centro de servicio autorizado o otra persona calificada.

27. Antes de conectarlo, lea toda la información concerniente al doble voltaje que se encuentra en la sección de instrucciones de este manual.

GUARDE ESTAS INSTRUCCIONES PRECAUCIONES

1. Los niños o las personas que carezcan de la experiencia o de los conocimientos necesarios para manipular el aparato, o aquellas cuyas capacidades físicas, sensoriales o mentales estén limitadas, no deben utilizar el aparato sin la supervisión o la dirección de una persona responsable por su seguridad.

Como medida de seguridad, este aparato se apagará automáticamente después de 60 minutos.

2. Asegúrese de que los niños no jueguen con este aparato.

3. Riesgo de quemaduras. Mantenga este aparato fuera del alcance de los niños pequeños, especialmente durante su uso y mientras se enfria.

DOBLE VOLTAGE

Este aparato es de doble voltaje. Se adaptará automáticamente al voltaje adecuado. Nota: Puede que sea necesario usar un adaptador de viaje (no incluido).
